Professional Summary

Data Engineer with 4+ years of experience in designing and optimizing ETL pipelines across on-premises and cloud environments. Proficient in Microsoft Azure ecosystem (Data Factory, Databricks, Synapse), SQL programming, and data warehousing. Skilled in performance tuning, Delta Lake architecture, and delivering scalable data solutions. Certified Azure Data Engineer with proven expertise in transforming raw data into actionable insights.

Core Skills

- **ETL Tools:** SSIS, Azure Data Factory
- **Databases:** SQL Server, Snowflake, Azure Data Lake
- **Programming:** SQL, Python, PySpark
- **Cloud Platforms:** Microsoft Azure (ADF, Databricks, Synapse, ADLS Gen2)
- **Data Engineering:** Data Warehousing, Delta Lake, Query Optimization
- **Methodologies:** Agile, Scrum

Certifications

- Microsoft Certified: Azure Data Engineer Associate
- Databricks Lakehouse Fundamentals (Academy Accreditation)
- Edureka Certified Big Data Expert
- MS SQL Database Administrator
- Business Analyst using Power BI
- Apache Spark Developer (Python)

Professional Experience

Senior Data Engineer *Excel Global Software Solutions, Visakhapatnam* | Aug 2025 – Oct 2025

- Designed dynamic ADF pipelines for ingesting POS, CRM, and booking system data.
- Built optimized Databricks pipelines using PySpark (broadcast joins, caching, column pruning).
- Implemented Delta Lake architecture (Bronze → Silver → Gold layers) with MERGE logic.
- Developed Synapse-ready fact/dimension models with partitioning and indexing.
- Automated monitoring and alerts via Azure Key Vault and Log Analytics.

ETL Developer *Fluentgrid Limited, Visakhapatnam* | Nov 2024 – Jul 2025

- Built real-time ingestion pipelines using Azure Event Hubs and Stream Analytics.
- Automated outage notifications via Azure Logic Apps.
- Designed dashboards in Power BI for real-time energy consumption and grid performance.
- Configured Azure Monitor for system reliability and alerts.

ETL Developer *Fluentgrid Limited, Visakhapatnam* | May 2024 – Nov 2024

- Developed ADF pipelines for Tokyo Olympics POC data integration.
- Leveraged Databricks + PySpark for large-scale transformations.
- Designed high-performance data warehouses in Synapse Analytics.

ETL Developer *Fluentgrid Limited, Visakhapatnam* | Oct 2023 – May 2024

- Created and optimized SSIS packages for NTPC Limited analytics project.
- Integrated multiple data sources (SAP, PI, Excel, flat files).
- Ensured data quality and optimized daily job execution.

Data Engineer *ValueMomentum Software Services, Hyderabad* | Jan 2022 – Jan 2023

- Built ETL pipelines for insurance data marts using SSIS and SQL.
- Applied query optimization techniques for performance tuning.
- Conducted QA validation and client approvals before production deployment.

Software Engineer *ValueMomentum Software Services, Hyderabad* | Dec 2020 – Jan 2022

- Migrated on-prem SSIS packages to Azure Data Factory.
- Conducted pre- and post-migration testing to ensure data integrity.
- Documented migration strategies for scalability.

Education

B.Tech in Information Technology GITAM University, Visakhapatnam

Key Highlights

- 4+ years of experience in ETL and cloud data engineering.
- Strong expertise in Azure Data Factory, Databricks, Synapse, and SQL Server.
- Hands-on experience with PySpark for scalable transformations.
- Certified Azure Data Engineer with proven migration and optimization projects.
